

Press Release from SpliceCom

SpliceCom Announces Acceleration in 3rd Quarter UK Growth

08 October 2007 – Chorleywood, UK ; SpliceCom, the IP convergence company whose award winning **maximiser** platform combines voice, video, IP TV and web enabled IT applications at the desktop today announced a significant increase in its UK system shipments between July and September, 2007.

Shipments of SpliceCom's **maximiser** Pure IP business telephone system in the UK grew 39% Quarter-on-Quarter for the three month period ending 30th September 2007. These shipments reflect a 50% growth when compared to the same quarter in 2006.

Commenting on the company's UK success during Q.3, SpliceCom CEO Sean Harding said, "This was the first full quarter of shipments for our latest **maximiser** 5 Series Call Servers & Phone Modules. The continued growth in our UK sales verifies the rapid market acceptance of the 5 Series platforms, by both our channel partners and their customers alike. In addition to increased system shipments, we have also seen our Quarter-on-Quarter sales of 100+ extension systems grow by over 200% during the same period. This we can directly attribute to the increased capacity offered by the 5 Series platforms, which now support up to 10,000 users, alongside the size, maturity and capability of the UK VARs that have chosen to be our business partners."

About SpliceCom

SpliceCom is a privately funded company, whose management team were behind the two most successful UK voice and data convergence companies of the 1990's - SDX Business Systems and Network Alchemy. SpliceCom's **maximiser** product family combines voice, video and web enabled IT applications within a single system, providing tangible business benefits for all types of companies, irrespective of their size. Having commenced shipments in early 2003, **maximiser** was voted the "Most Innovative Product" at one of the UK's premier communications trade events, Comms Channel Expo 2004, whilst SpliceCom's PCS 50 for Mac OS X IP Softphone/Phone Partner application picked up the award in 2005. Leading market analysts MZA attributed SpliceCom with a 16% share of the UK IP PBX market during Q.2 2007.
